Letter of Support for the Project

On behalf of Związek Gmin Ziemi Zgorzeleckiej, I would like to express our strong support for the project on **GreenLink – Connecting Energy Community Models between Poland & Estonia**, to be implemented by an international consortium that includes the Association for the Development of Energy Innovation in Poland and the Association of Local Authorities of Ida-Viru County, Estonia.

As this project will be submitted to the European Climate Initiative (EUKI) of the Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) to support cross-border climate action in Europe, we believe that it will generate positive outcomes for local communities and contribute to the development of sustainable energy solutions in Estonia and Poland.

The project aims to provide policymakers and market regulators with a clear roadmap for overcoming barriers to energy community development. By leveraging Poland's experience as a benchmark for Estonia, the initiative will facilitate knowledge exchange and collaboration between stakeholders in both countries.

We look forward to collaborating on the dissemination of the project's findings and contributing to straightening its impact by sharing the outcomes within our network.

This project is a significant step towards achieving the EU's climate and energy goals, and we are confident that its outcomes will enhance regulatory frameworks, foster local energy initiatives, and promote cross-border cooperation between Poland and Estonia.

This letter of support does not contain any financial commitments on our behalf.
